DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-4, drawn to an air permeable fibrous pad, classified in class 442, subclass 381.
 - II. Claims 5-8, drawn to a method of making an air permeable fibrous pad, classified in class 28, subclass various.
2. The Examiner has grouped claims 6-8 with claim 5 for the purposes of this restriction because claims 6-8 depend upon claim 5. However, claim 5 recites a method for making a fibrous pad, whereas claims 6-8 recite a fibrous pad product. This is indefinite. The Examiner will assume that claims 6-8 should be recited as method claims. However, if the Applicant has meant these claims to be "product-by-process" claims, then claims 6-8 would go into Group I with claims 1-4, being directed to a product. Clarification is requested upon response to this Office Action, along with an appropriate amendment of claims 6-8.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process

Art Unit: 1771

(MPEP § 806.05(f)). In the instant case the product can be made without cutting the strips the same size as the belt.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeremy R. Pierce whose telephone number is (703) 605-4243. The examiner can normally be reached on Monday-Thursday 7-4:30 and alternate Fridays 7-4.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris can be reached on (703) 308-2414. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0661.
